

## #Jenny

Finally I get this ebook, thanks for all these I can get now!

## #Rio

Cool! I'am really happy

## #Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

## #Hun Tsu

wtf this great ebook for free?!

## #Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

## #Diego Butler

so many fake sites. this is the first one which worked! Many thanks

### PORTFOLIO PREPARATION/AP ART MONOPRINT PROJECT STUDENT CHECK SHEET

- This project focuses on:
- working an inked surface by wiping away and pulling a single print.
  - drawing into a wet surface with a variety of marks made with fingers, rags and assorted tools
  - creating a sense of movement to represent the image with rapid, spontaneous lines
  - conceiving an image in reverse

ASSIGNMENT: Make a composition of a selected subject. You may work from photographs or compose your own loosely from images you find. Look at monoprints done in both additive and subtractive methods. Working on a plate of plexiglass, roll a layer of ink and then wipe and incise for subtractive methods, and apply ink directly with brush or fingers for additive methods. You may print successive layers, tracing your first print on the plexi glass (upside down) in order to register colors. Be sure that the final surface layer of your painting has interesting and varied texture, using wiping, incising as well as other mark making techniques. You may work over your final surface with oil crayons or pastels.

CHECK SHEET OF BASIC PROJECT REQUIREMENTS	
Have I chosen a strong image to print with an interesting composition that fills the page?	
Does my eye move easily across forms?	
Have I worked the background as well as the subject?	
Have I balanced black and white so there is an equal amount of each?	
Are there a variety of marks?	
Have I wiped the ink to articulate light?	
Is my drawing well crafted? Have I carefully inked the plate and pulled a clean print?
